Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:**

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

- 2. Claim 1-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Woiceshyn, Wycech '545, '902, Garrett (of record) or Darvell et al.**
- 3. Patentees disclose a foamed composition from a fibrous material including microspheres interspersed within the fibrous material forming a part of the structure.**
- 4. Particularly note col. 1 line 56 to the end of col. 2 and col. 3 line 48-56 of Woiceshyn; col. 7 lines 17-39, lines 28-37 of col. 8, col. 6 lines 37-62 and col. 9 lines 20 to 28 of '545; col. 7 lines 4-39 and claims 11, 12 and 15 of '902; col. 4 line 45 to col. 5 line 18 of Garrett; and col. 14 EXAMPLES 21-24 of Darvell.**

5. The contents of claim 3 are disclosed by the Wycech and Darvell patents.

6. All the references refer to the Trade-Mark term "EXPANCEL" which would include the microspheres made from (PAN).

7. In view of the fact that the origin of the porosity could derive from either the expanded microspheres or the fibrous material or both, the instant claims read on the disclosures of the applied references.

8. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

- 1. Determining the scope and contents of the prior art.**
- 2. Ascertaining the differences between the prior art and the claims at issue.**
- 3. Resolving the level of ordinary skill in the pertinent art.**
- 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.**

6. The following is a quotation of the second paragraph of 35 U.S.C.

112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention because while claim 1 calls for a foamed composition it is not clear from where said foam is derived from. Clarification is requested.
